

## Post Mobilization Technical Support

### AEECPL Project Manager's Visit to Ahmedabad

Last Updated on: - September 19, 2023

#### Brief details

This phase plays a pivotal role in sustaining the operational momentum following mobilization, ensuring a smooth transition. The initial technical support was executed at the Ahmedabad Asset. Mr. N.T. Jadhav, our Project Manager, engaged with ONGC's teams at both locations and conducted on-site assessments of our deployed safety officers. These visits were carried out on September 11, 2023, as scheduled.

The details pertaining to this visit are as follows: -

AEECPL Team	ONGC Team
Mr. N.T. Jadhav	Mr. Neeraj Agrawal, Asset HSE Head
	Mr. Namit Sharma Asset Head (ED)
	Mr. Sanjay Varshney GM HSE
	Mr. R S Jasrotia G M HSE Drilling Services

Pankaj Keshre	Surface Team
Nair Anandu Ashokkumar	Surface Team
Malek Shahbaj Mahammadiqbal	Drilling Team
Parmar Nikhil Pravinbhai	Drilling Team
Prashant Gajbhiye	Well services

#### Visit Brief

- During a comprehensive discussion, Mr. N.T. Jadhav, our Project Manager at AEECPL, reiterated our unwavering commitment to ONGC in the provision of Installation Safety Officers. The presentation encompassed an overview of AEECPL's organizational structure, highlighting the technical and administrative support available to Safety Officers. Additionally, we introduced the Project Manager from our corporate office and Project Coordinators stationed in ONGC's Delhi and Mumbai offices.
- Furthermore, we underscored that all AEECPL Safety Officers deployed can readily access the AEECPL Team for support and communication. ONGC expressed its intent to promptly assemble a dedicated team for deploying Safety Officers across various locations.
- AEECPL also shared the reporting formats it has developed, with a focus on their implementation. Notably, ONGC preferred that one of the AEECPL Safety Officers submits daily reports in digital format on behalf of the entire deployment, as ONGC would not be furnishing a dedicated reporting system for this purpose.
- Moreover, the protocol dictates that each individual AEECPL Safety Officer assumes responsibility for daily reporting to their respective senior ONGC office, with one designated AEECPL Safety Officer assigned to report to the HSE Department. To ensure transparency, a duplicate of the same report will be forwarded to the AEECPL Coordination Team.
