THE STOP CARD, A WAY TO ACCELERATE POSITIVE SAFETY CULTURE

Deployed simultaneously across ONGC, the program:

- Changes safety behaviour by encouraging everyone to step in while operations are in progress, heightening shared vigilance.
- Takes a participatory approach to identify situations in which the rules are not being followed.
- Highlights the important role of managers on the ground and the entire management chain in recognizing and resolving problems raised.
- Makes it easier for the originator and contractors to address safety issues together.

This achievement marks a significant stride toward forming a skilled workforce primed to make a substantial impact on the successful execution of Lakshya.
