Topics' Brief:

Increase near miss reporting: Encourage timely reporting of near misses to prevent future incidents and improve workplace safety through proactive measures.

Ten safety rules awareness at site: Ensure all personnel are well-versed in the ten critical safety rules specific to the site to minimize risks and promote a culture of safety.

Mechanical tools & equipment checked before starting operation: Prioritize safety by conducting thorough checks on mechanical tools and equipment before commencing any operation to mitigate potential hazards.

Behaviour-based safety culture development at site: Foster a culture where safe behaviours are actively encouraged and rewarded, creating a positive environment that prioritizes safety at every level.

Hot work safety precautions: Implement stringent safety protocols and precautions during hot work activities to prevent fire hazards and ensure the protection of personnel and property.

This achievement marks a significant stride toward forming a skilled workforce primed to make a substantial impact on the successful execution of Lakshya.
