

Orientation and Technical Training

Our safety officer conducted a Fire Mock Drill at Tripura asset.

Last Updated on:-

Feb 25th, 2025

Brief details:

A Fire Mock Drill was conducted at Baramura GCS (Tripura Asset), led by CORE EHS, the Installation Safety Officer. The drill aimed to assess the preparedness and response procedures in case of a fire emergency at the site.

Under Safety officer leadership, all personnel participated in the drill, which included simulated scenarios to test the effectiveness of safety measures, evacuation plans, and the proper use of firefighting equipment. The exercise emphasized the importance of safety protocols, coordination among teams, and swift action during critical situations.

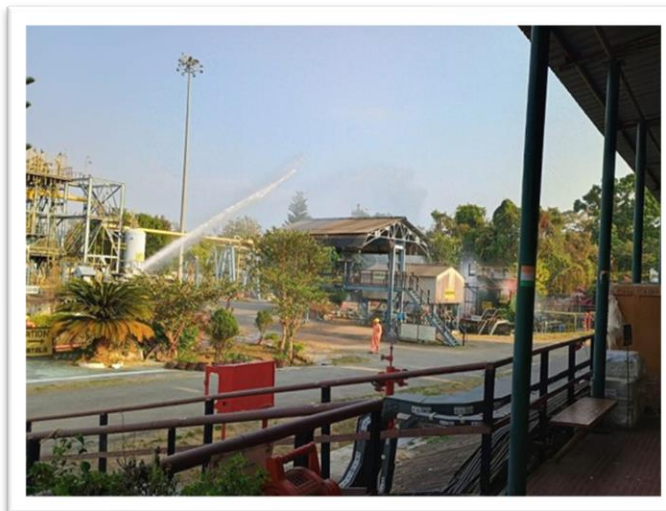

Safety officer ensured that the drill was carried out smoothly and effectively, with thorough briefings and debriefings to highlight areas for improvement. The activity was a key step in maintaining high safety standards and reinforcing the commitment to a safe working environment at Baramura GCS. The details of the training sessions are as follows: -

Trainings Provided	Date
Fire Mock Drill	25 th , Feb 2025

The meticulous training program impeccably aligned with ONGC's rigorous standards, ensuring the selection of highly competent safety personnel.
