**Fire Safety Awareness at Cyclone Preparedness Drill at ONGC Tripura Asset – Trainer: Suraj Pratap Singh**

**Last Updated on:-**

May 14 th, 2025

### Brief details:

A comprehensive cyclone preparedness drill was conducted at the Gas Collecting Station (GCS) in the Sonamura area of ONGC Tripura Asset on May 14, 2025. The objective of the drill was to evaluate the readiness of personnel and systems in the event of a cyclonic emergency, ensuring adherence to ONGC's safety protocols and government disaster management guidelines.

Mr. Suraj Pratap Singh, Installation Safety Officer from CORE-EHS Solutions Pvt. Ltd., participated actively as part of the safety and emergency response team. His responsibilities during the drill included monitoring compliance with safety procedures, coordinating with site emergency personnel, and providing expert guidance on evacuation protocols and hazard mitigation strategies.

The drill involved simulation of a cyclone warning scenario, activation of the emergency response plan, mock evacuation, and review of communication and coordination between various response teams. The performance of the drill was later reviewed in a debriefing session, where key observations and suggestions for improvement were discussed.
