Mock First Aid Drill on Electrical Shock at Tripura Asset

Last Updated on:-

Apr 10 th, 2025

Brief details:

A Mock First Aid Drill focusing on electrical shock incidents was conducted near the DIC Room at **Oil and Natural Gas Corporation (ONGC) Tripura Asset**. The drill aimed to enhance the team's ability to respond effectively to electrical emergencies. Key participants included **Mr. Atanu Paul and Mr. Sk Abdul Farid, both Installation Safety Officers from CORE-EHS Solutions Pvt. Ltd.**

The scenario involved a simulated electrical shock accident, where the victim was electrocuted due to a faulty electrical connection. The drill emphasized proper safety measures, including the importance of disconnecting the power source before approaching the victim. Participants were trained on assessing the victim's condition, administering CPR if needed, and providing basic first aid for burns or injuries caused by the shock.

Mr. Atanu Paul and Mr. Sk Abdul Farid provided guidance throughout the drill, ensuring that safety protocols were followed and offering valuable feedback to improve response times and procedures. The involvement of CORE-EHS Solutions helped ensure that the drill adhered to industry standards, reinforcing the importance of emergency preparedness and safety at **Oil and Natural Gas Corporation (ONGC) Tripura Asset**.
